

LEX AUTOLEASE

CAR AND VAN RENTAL KEEPING YOU MOBILE

We can offer you a full range of hire vehicles through our key rental suppliers.

OUR SERVICE

In partnership with our suppliers, we provide a choice of cars, commercials and specialist vehicles from over 1,400 locations in the UK.

This gives you a flexible addition to your fleet when you need it. We can also offer overseas rentals from over 4,000 locations worldwide.

Typically, standard vehicles can be delivered to any UK business or home address within 2 working hours*, keeping your drivers mobile at all times.

THE BENEFITS

You can hire a vehicle for as little as 1 day to a maximum 3 months. This flexibility provides an ideal solution for new or probational employees or for seasonal demand. There is no obligation to commit to a long term contract. We also offer minilease rentals if you need to hire a vehicle for more than 45 days, at highly competitive rates.

We provide detailed management information including P11d reports, and manage open hire bookings to make sure they are still required, helping you to reduce costs.

CAR AND VAN RENTAL INCLUDES:

- Dedicated call centre for bookings and collections
